## *Gentle Flexibility – Integrating Female Energy*

- ☒ Tiger Lily essence helps bring feminine energies to the surface when we have stronger masculine energies shadowing our feminine nature. It's very helpful for men who have not fully integrated the inner feminine (anima) part of themselves
- ☒ Tiger Lily helps us find our inner harmony.
- ☒ This essence especially benefits those who see themselves as separate from others, or as striving against others rather than working for the common good.
- ☒ It shows us the path of gentle flexible strength, and engages in only healthy competition.
- ☒ Tiger Lily helps the soul to harness its essential power and strength in the service of higher good and world evolution.
- ☒ It's indicated for any situation where masculine energy predominates and feminine energy is needed to counterbalance it. This shift in consciousness involves the integration of feminine values in society, especially in business and politics, a shift from competitive, aggressive models of behaviour to those which are cooperative and inclusive. Tiger Lily is very beneficial for helping the soul transmute hostile or aggressive tendencies into positive social impulses and to extend ourselves in a more cooperative way.
- ☒ At the time women of menopause women often have to deal with unresolved polarities in their lives. A lessening of the female hormones, which suppress the male hormones in the body, brings up issues of the yin/yang, female/male balance of energies. This transition from the mother/nurturer to the wise woman isn't always easy. There can be the subtle implication that when she no longer menstruates she has outlived her usefulness. This essence allows your destiny and your soul's longing to be revealed. It facilitates the awakening of the self to a new life purpose, to the powerful roles you can play as a responsible and respected member of the community, bringing a wealth of feminine wisdom and experience to bear in community life.
