

## **KALKEI TRIPHASE<sup>®</sup> BRACELETS**

In line with the very latest trends and yet also totally unique, our new Kalkei Bracelets feature threaded Hematite (a mineral form of iron mixed with ferrite) beads that each register 600 gauss.

The Kalkei Bracelets are available in three highly fashionable colours, Light Sapphire, Light Siam and Rose. Each coloured Amerial clay bead is infused with Negative Ions and Far-Infrared ceramics creating the unique Nikken product benefits.

As well as replicating the calming, negative-ion rich environment found in forests and near waterfalls, energy in the far-infrared range is first absorbed then gradually released to provide gentle warming. Working in combination with the magnetic energies, these advanced, innovative technologies create a reassuring, soothing effect.

Fitting sizes from 19 cm to 28 cm approx., all versions of our Kalkei Bracelets come in velvet presentation pouches enhanced with a silver Nikken logo.

### **KEY FEATURES AND BENEFITS**

- **Highly-contemporary, striking coloured design**
- **When you look good, you can feel good too!**
- **Powerful, 600 gauss magnets replicate the Earth's magnetic energies**
- **Infused Negative Ions reproduce a calming, negative-ion rich environment**
- **Far-Infrared Technology disperses gentle, comforting warmth**
